PROFILE

Aspiring Full-Stack Web Developer with hands-on experience in frontend development and a internship focused on the MERN stack. Skilled in building responsive and user-friendly web interfaces in React.js. Familiar with RESTful APIs, Git, and modern web development practices. Passionate about creating clean,functional web applications and continuously learning new technologies.

INTERNSHIPS

Aug 16, 2024 – March 28, 2025
The wildtigers technology
Trainee - Frontend Developer

- Developed responsive web interfaces using React.js, HTML5, CSS3, ensuring mobile-first and cross-browser compatibility.
- Built reusable components using React Hooks and Context API for efficient state and data management.
- Integrated REST APIs to display dynamic data.
- Collaborated with team members using Git and GitHub, following Agile methodology and code review practices.

May 12, 2025 – May 26, 2025 (15 Days)
CREART SOLUTIONS
Mern Stack Intern

- Completed 15-day MERN stack internship, building a basic full-stack project.
- Developed simple frontend using React.js and styled components for a user-friendly interface.
- Created basic backend using Node.js and Express, handling routing and simple API requests.
- Connected project to MongoDB for data storage, with basic CRUD operations implementation.

EDUCATION

2022 - 2026
SILVER OAK UNIVERSITY

- Bachelors of Computer Engineering
- CGPA: 8.5

2022
National Institute of Open Schooling (NIOS)

- Higher secondary school
- 64%

2020
GIRDHARNAGAR SCHOOL

- Senior Secondary school
- 61%

SKILLS

- MERN Stack
- JavaScript (ES6+)
- Python with Django (Basics)
- REST API Integration
- Git & GitHub
- Responsive Web Design
- Problem Solving & Debugging

LANGUAGES

- English
- Hindi
- Gujrati

PROJECTS

Portfolio Website (MERN Stack)

Built a full-featured personal website using the MERN stack (MongoDB, Express.js, React, Node.js), incorporating user authentication and interactive UI components. Managed both front-end and back-end development.

Products Webpage with Admin Panel (Django)

Designed and implemented a dynamic products website featuring an admin panel built with Django for seamless management of products and users.

Frontend Practice Pages

Developed approximately 10 practice web pages during internships and personal projects at home to strengthen core front-end skills. These pages utilized HTML, CSS, and Bootstrap, with a focus on responsive design, clean code, and effective UI layout techniques.

COURSES / CERTIFICATIONS

Simplilearn – Introduction to MERN Stack

Gained foundational skills in building web applications using MongoDB, Express.js, React, and Node.js. Learned the basics of full-stack JavaScript development, including RESTful API structures and responsive user interfaces.

CreArt Solution – Django Internship (1 week)

Developed a Django web application during a hands-on internship. Enhanced understanding of Python-based web frameworks, database integration, and practical project management under real-world conditions.

Alison – Python for Data Science

Learned fundamental Python programming specifically applied to data science tasks such as data analysis, visualization, and manipulation. This course provided practical skills to work effectively with data.
